## GENERAL COLLECTION

A letter before each variety indicates, for quick reference, the season of flowering—early, late, etc. The date after each variety is approximate date of flowering.

E—Early. To get best flowers, it is important to order early and plant early in May or June for best results. If buds are not formed on dates shown, reserve the first bud appearing after that date.

M—Midseason. When seasons are favorable, some of these will bloom a few days before November 1st.

L—Late. Late flowering varieties usually have best blooms about November 10th, if early buds are taken and the season is favorable. These varieties may be had for later blooming by selecting the later buds and planting later.

T—Thanksgiving varieties usually flower shortly before Thanksgiving, but can be held, in most cases, for Thanksgiving sales.

"C. S. A. Certificate" is the award of the "Chrysanthemum Society of America."

# General Information

**PRICES:** Prices are for rooted cuttings, which we believe to be more satisfactory than potted plants. Prices are subject to change without notice, also subject to crop failure.

---

**ORDER EARLY:** It is to your advantage to let us know as early as possible what you will want. Help us to help you by ordering early.

---

**OUR SERVICE:** We want to supply you the best varieties suitable for your business. Consult us. We will give you expert advice so far as we can. The information in this list regarding the date of taking bud, height of bloom and flowering dates and descriptions will be helpful to you. **SAVE THIS LIST FOR REFERENCE.**

---

**OUR RESPONSIBILITY:** We accept orders contingent upon our ability to have produced for us sufficient stock to meet the demands. All orders are filled in strict rotation. Orders will be filled as near the date desired by customers as it is possible to do so, bearing in mind that weather conditions and many other elements sometimes delay the growth of stock beyond human control. All orders are booked subject to crop shortages and crop failures. We agree to supply good stock, well rooted, packed in the proper manner and to deliver to the express company or post office (whichever customer designates) after which the plant travel at buyer's risk.

---

**CLAIMS FOR DAMAGE:** All claims for damage must be made against the carrier by the buyer. We have no control over transportation agencies and cannot be responsible for stock frozen, heated or injured by delays or rough handling. According to law, the transportation companies are the agents of the buyer and our responsibility ceases when we deliver stock in good condition to such agencies.

---

**NON-WARRANTY:** We do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once and money will be refunded. Subject to the above conditions, we make this sale at the moderate prices at which we sell our goods. All claims must be made in writing within five days after the receipt of goods.
